DETAILED ACTION

Examiner acknowledges the Preliminary Amendment received on January 17th, 2006 and the associated amended claims.

Election/Restrictions

 This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In order for more than one species to be examined, the appropriate additional examination fees must be paid. The species are as follows:

Species 1: Figure(s) 1, 3

Species 2: Figure(s) 2

Species 3: Figure(s) 4

Species 4: Figure(s) 5

Species 5: Figure(s) 7

Species 6: Figure(s) 9

Species 7: Figure(s) 10

Species 8: Figure(s) 11

Species 9: Figure(s) 12

Species 10: Figure(s) 13

Species 11: Figure(s) 14

Species 12: Figure(s) 15

Species 13: Figure(s) 16

Species 14: Figure(s) 17 - 18

Art Unit: 3781

Generic:

The claims are deemed to correspond to the species listed above in the following manner:

Figure(s) 1, 3: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 2: Claim(s) 3, 8, 9, 15 Figure(s) 4: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 5: Claim(s) 3, 8, 9, 15 Figure(s) 7: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 9: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 10: Claim(s) 3, 8, 9, 15 Figure(s) 11: Claim(s) 1, 2, 4, 5, 6, 7, 10, 11, 12, 13, 14, 16, 17, 18 Figure(s) 12: Claim(s) 3, 6, 8, 9, 11, 12, 13, 15, 18 Figure(s) 13: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 14: Claim(s) 3, 8, 9, 15 Figure(s) 15: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17 Figure(s) 16: Claim(s) 3, 8, 9, 15 Figure(s) 17: Claim(s) 1, 2, 4, 5, 7, 10, 14, 16, 17

None

- 3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the common technical feature in all species is the stopper. This element cannot be a special technical feature under PCT Rule 13.2 because the element is shown in the prior art. US Patent 6,565,814 teaches a stopper and corresponding structure substantially as claimed.
- Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply

Application/Control Number: 10/564,718

Art Unit: 3781

must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the

Art Unit: 3781

prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

.

Conclusion

 Any inquiry concerning this communication or earlier communications from the examiner should be directed to NED A. WALKER whose telephone number is (571)270-3545. The examiner can normally be reached on Monday - Friday 7:30 AM - 5:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Stashick can be reached on 571-272-4561. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
